

Discover a whole new world of better hearing.

Introducing **Agil.**

The revolutionary new hearing device that helps you understand more with less effort.

Set a new course.

Discover a whole new world of better hearing.

Having issues with your hearing shouldn't stop you from enjoying life. It's simply a matter of making a choice: to move forward and take control of your condition, or do nothing and fall behind.

At **Oticon**, we developed **Agil** for people like you, who choose to move ahead and stay included – to confidently engage in conversations, to accept challenges, to feel good about yourself and the contributions you make.

Agil will navigate you over life's ever changing soundscape, guiding you along a journey to better hearing with dramatic new standards in sound quality, comfort and convenience.

It's time to experience the real you with **Agil**.

A photograph of a dolphin leaping from the ocean at sunset. The dolphin is in mid-air, its body arched, with a splash of water visible below it. The sun is low on the horizon, creating a bright, golden glow that reflects on the water's surface. The sky is filled with soft, orange and yellow clouds. The overall mood is serene and inspiring.

Explore a world
without barriers.

Enjoy all the voices, music and sounds that color your world.

Agil is like no other hearing device. It's designed to improve your ability to hear and understand, even in difficult listening situations. There's no need to avoid crowded restaurants, conference rooms or sporting events. No need to turn up the volume on the TV. With **Agil**, hearing is effortless. Since you won't have to work hard to hear anymore, you'll have the energy you need to participate in conversations and your favorite activities.

Agil takes the work out of hearing and listening.

There's a sound processing chip inside **Agil** that allows it to do things that have been impossible until now. Its super fast speed means more power to differentiate sounds and more mental energy to understand, remember and participate.

Three unique features work together to make **Agil** one of the most advanced hearing devices on the market today.

- **Spatial Sound 2.0** – This technology supports the brain's natural process of understanding speech. For example, when you enter a crowded room, **Agil** picks up on certain cues that allow you to hear and understand what's going on. Thanks to spatial noise management, you will never be bombarded with a "wall of sound." Instead, you'll be able to hear the voices that are speaking to you, and shift attention to other voices as you choose.
- **Speech Guard** – Only **Agil** offers the ability to follow conversations so naturally and immediately. The device is designed to recognize natural speech cues, and keep competing noise or voices from distracting you, giving you a sense of quiet clarity. The process leaves you with more energy to listen, understand and act upon what is being heard.
- **Connect Plus** – Enjoy music like never before when you stream through any Bluetooth™ device. Enhanced Music Widening improves the quality of sound you hear, much like an equalizer on a stereo. **Agil** has a unique Power Bass feature that lets you hear the full breadth and range of music selections.

Broaden your horizons.

Agil comes in a full range of styles and colors.

A stylish solution for every hearing loss.

Agil redefines your expectations of style and comfort and is available in a range of models to suit virtually any hearing loss or individual need. **Agil** offers the most flexible receiver-in-the-ear (RITE) choices in the market. Subtle colors blend in to complement your natural skin and hair tones for the ultimate in discretion. There is also a selection of standard BTE models and a full custom ITE range – now with the option of a power CIC.

The people you meet may not even notice you're wearing a hearing device. But you'll notice a huge difference in how you can communicate with them.

On your journey toward better hearing, **Agil** will be the resource that helps you experience life with clear, comfortable hearing. You've never let obstacles get in the way of your personal goals. Hearing loss should be no exception.

Let Agil take you further ahead along the journey to better hearing.

Your ultimate destination: Back where you belong with **Agil**.

Finally... a hearing solution that transforms the way you live your life.

You may not want to admit it, but hearing loss can be exhausting. When you strain to catch portions of phrases or keep up with conversation, you use a number of mental resources that leave you fatigued. Gradually, you feel more and more alone – isolated from the people and things you care about most.

Agil sets you free by taking the work out of hearing and listening.

Because it lets you hear more naturally and more completely, you'll understand better. And have more energy to participate in all the things that make your life worthwhile.

People First

People First is our promise:
to empower people
to communicate freely,
interact naturally and
participate actively
