

Introducing **Agil** by **Oticon**.

The revolutionary new hearing device that helps you understand more with less effort.

When voices and sounds you once took for granted are no longer easy to understand, the world around you can seem darker and more confining. You need that little something to help you stay connected to family, friends and life.

Set yourself free and rediscover the real you with Agil.

People First

People First is our promise: to empower people to communicate freely, interact naturally and participate actively

Set yourself free
from hearing loss.

Oticon | **Agil**

Don't let
hearing loss
hold you
captive.

Enjoy all the voices, music and sounds that color your world.

Agil is like no other hearing device. It's designed to improve your ability to hear and understand, even in difficult listening situations. No need to turn up the volume on the TV. With **Agil**, hearing is effortless. Since you won't have to work hard to hear anymore, you'll have the energy you need to participate in conversations and your favorite activities.

Agil takes the work out of hearing and listening.

There's a sound processing chip inside **Agil** that allows it to do things that have been impossible until now. Its super fast speed means more power to differentiate sounds and more mental energy to understand, remember and participate.

Let **Agil** transform the way you live your life.

Three unique features work together to make **Agil** one of the most advanced hearing devices on the market today.

- **Spatial Sound 2.0** – This technology supports the brain's natural process of understanding speech. You will never be bombarded with a "wall of sound." Instead, you'll be able to hear the voices that are speaking to you, and shift attention to other voices as you choose.

- **Speech Guard** – Only **Agil** offers the ability to follow conversations so naturally and immediately. The device works in harmony with your brain to recognize natural speech cues and keep competing noise or voices from distracting you, giving you a sense of quiet clarity.

- **Connect Plus** – Enjoy the full breadth and range of music when you stream through any Bluetooth™ device.

A stylish, technologically advanced solution.

Agil redefines your expectations of style and comfort, so you don't have to feel self-conscious. Sleek and small, it's practically invisible behind the ear. Subtle colors blend in to complement your natural skin and hair tones for the ultimate in discretion.

The people you meet may not even notice you're wearing a hearing device. But you'll notice a huge difference in how you can communicate with them.

Leave the world of isolation behind and discover a new world where you can be the person you want to be. The person you know you really are.

Talk to your hearing care professional about trying **Agil** by **Oticon** today.
