Take charge of your life.

**With a hearing solution
designed for style, comfort
and performance.**

If you think you'll never be comfortable wearing a hearing device, think again. AltaDesign is customized exclusively for you, your style and your hearing needs. Sleek and small, you'll forget you're even wearing it. But thanks to our revolutionary BrainHearing™ Technology, you'll hear clearly, more naturally and effortlessly, in any hearing situation. So what are you waiting for?

Designed for comfort and style.

AltaDesign is all about style. It's super sleek and small, and hides just behind your ear. If you prefer, there's a model that fits discreetly in your ear canal where it's completely invisible. You can choose from many designs or custom fittings that suit your lifestyle and hearing abilities. They're all available in colors that match your skin and hair tones, or make a fashionable statement.

Introducing AltaDesign.

The hearing solution you can live with.

Designed to give your brain exactly what it needs to hear.

Did you know that hearing actually takes place in the brain, not in the ears? And because your brain is different from everyone else's, you hear differently than anyone else. Oticon's revolutionary BrainHearing™ Technology enables AltaDesign to be minutely tuned to match your unique hearing profile and personal sound preferences. It then delivers sound with the clearest, purest signal possible in a way that your brain is best able to understand it. The result is a more natural hearing experience that's customized just for you.

BrainHearing™ Technology:

- Helps** both ears work together
- Recognizes** and preserves natural speech
- Separates** speech from background noise
- Coordinates** how sound is best understood by your brain

Hearing devices shown actual size. Available in 14 colors and many custom styles.

96% PATIENT SATISFACTION
Designed for optimal performance.

AltaDesign delivers clear, natural sound that is never tinny or mechanical. In fact, you'll enjoy a natural, effortless listening experience that leads the industry with a 96% patient satisfaction rating.

Consult with your hearing care professional today to hear more about the comfort and style of AltaDesign.

Live life to the fullest.

With AltaDesign, you can enjoy all that life has to offer. Feel free to go out on the town. Join in the conversation with friends, family and co-workers. Talk and listen on the phone. Or just sit back and relax with your favorite music or television show. AltaDesign lets you hear more clearly and more naturally. Anywhere. Anytime. And that's something you can really live with.
