

# Muse CROS System

---

*Hearing solutions for single-  
sided hearing loss*

# Made for single-sided hearing loss

---

With our new line of Muse™ hearing aids, Starkey® has a solution for those with single-sided hearing loss.

**Starkey can help you surround yourself with the power of Starkey Sound.**

*Starkey Sound™ has cutting edge technology that delivers true listening enjoyment.*

# The Muse CROS System

---

The new Muse CROS System was developed to give more people solutions for better hearing.

Now, if you have single-sided hearing loss you'll be able to hear the world around you – in full, pristine sound. You no longer have to worry about the difficulties of locating sounds, or whether or not you're positioned in the most convenient area for listening clarity.

## Muse CROS System benefits:

1. *Improves listening in noise*
2. *Helps in locating the origin of sounds*
3. *Reduces background noise*
4. *Decreases echoes and reverberating sounds*
5. *Allows you to hear from both sides — with devices so small and discreet they're nearly invisible*

# Customized solutions

## CROS solution

If you're unable to hear in one ear and have normal hearing in the other ear, you may benefit from a CROS solution. Finally, you'll be able to hear sounds in your weaker-hearing ear by way of your healthy ear.

### How it works

To help you better engage in all types of listening environments, our CROS solution has a microphone that picks up sounds and voices from your weaker-hearing ear, then transmits them to a hearing aid receiver that's fitted on your good ear. No matter your position at the dinner table, or if sounds originate from your weaker-hearing side, you won't miss important sounds around you.

**Also available with**

## BiCROS solution

A BiCROS solution is also available and can benefit those with little to no hearing in one of their ears, and a hearing loss in their better ear.

### How it works

This option sends sound from a microphone, placed in your ear with little to no hearing, to a hearing aid receiver placed in your better-hearing ear. This allows you to hear from both sides. Your audiologist can help you determine what solution will best fit your needs and lifestyle.

# Made to deliver the very best.

## You want

## Muse delivers

*To hear comfortably in  
challenging environments*

**Acuity™ Directionality** is designed to improve speech audibility in difficult listening situations along with **Speech Shift**.

*To easily adapt to  
new sounds*

This feature speeds your transition to hearing aids by gradually adjusting settings to allow your brain to get used to new sounds.

*Better wireless  
streaming*

Technology that provides consistent wireless performance while streaming TV, music and other media with SurfLink® Mobile 2 and other SurfLink accessories.

*Natural one-on-one  
conversations*

The all-new SurfLink Remote Microphone is a discreet, lightweight microphone worn by a conversation partner to aid patients in one-on-one conversations in difficult listening environments.

*A comfortable, personalized  
listening experience*

Sound comfort technology designed to provide distortion-free listening comfort for loud sounds while ensuring ultimate clarity for soft sounds.

*No buzzing or whistling*

Starkey's best-in-class feedback cancellation system providing feedback-free, comfortable listening all day long.

*Durable, dependable  
hearing aids*

**Surface™ NanoShield**, our pioneering water, wax and moisture repellent system, to protect and ensure durability and dependability.

*Music the way it was  
meant to be heard*

Muse is designed to allow you to experience music in a whole new way. Now you can hear every note the way the artist intended – with pure, refined sound quality.

*Customizable tinnitus relief*

Advanced **Multiflex Tinnitus Technology** integrated into Muse to bring relief to those who suffer from ringing in the ears.

Features may vary by technology level.

Made for  
**everywhere**  
you are.

From the beginning,  
our hearing solutions  
have enabled people to  
hear better in difficult  
environments and  
live a better life.

You want to hear all the  
subtleties of life: the inflection  
in the voice of a spouse or  
the nuances in the notes  
of a favorite song. Whether  
it's one-on-one or in the  
most crowded places,  
you'll hear the world  
around you.

*What is your  
hearing  
lifestyle?*

Our lineup of products  
enhances many different  
listening environments.  
What you need depends  
on your lifestyle and how  
active you are.

*Compare the listening  
environments on the  
chart inside.*

# Hear the world in surround sound.

---

Starkey delivers the best possible sound to your better ear so you don't have to worry about repositioning yourself for conversations or missing important sounds.

Single-sided hearing loss doesn't have to get in the way of your lifestyle or your activities. With the Muse CRoS System, you can experience sound from all sides — never missing a single moment that brings you joy. Because when you hear better you live better.

For every Starkey hearing aid purchased, we help someone in need. Starkey Hearing Foundation has provided more than **1 million** hearing aids to people in need worldwide and is committed to providing **1 million** more this decade.
