TIME  
BEST

INVENTIONS

2019

# Award-winning technology

The hearing aid that launched a revolution is one of TIME Magazine's 100 Best Inventions of 2019. Esentia AI, the world's first Healthable hearing aid with artificial intelligence and embedded sensors, addresses the deep connection between hearing health and overall health. Esentia Edge AI is built on this technology.

---

## Defining technology's leading edge

We've reinvented the hearing aid with integrated sensors and artificial intelligence to empower you with life-changing features and sound performance. It's just the beginning of our continuous effort to deliver the best hearing health solutions with the most advanced technologies.

# Healthy hearing means a healthier you

A growing body of evidence points to a connection between hearing health and overall health. People who treat their hearing loss not only hear better, they lower their risk for serious health issues such as cognitive decline and dementia.<sup>1</sup>

## Better tracking accuracy

The ear is the best place to track health and fitness data. Esentia AI provides you with that advantage.

### Body Tracking

Staying active is key to staying healthy. Tracking steps and movement has been shown to inspire continuing or increasing activity.

### Brain Tracking

A healthy social life can reduce stress and prevent depression, leading to better brain health. Monitoring hearing aid use and engagement can encourage more social interaction.

### Fall Detection and Alerts

Designed to help you stay independent, falls can be detected and alert messages sent to selected contacts.

# Reconnect with what matters most

Sleek, wireless accessories stream the sounds you love directly to your Esentia AI Edge hearing aids. Enjoy your favorite music, TV shows and phone calls with excellent sound quality.

## 1. Mini Remote Microphone

Enjoy one-on-one conversations in noisy environments by clipping it to your conversation partner's clothing.

## 2. TV Streamer

Easily stream audio from your TV or other electronic audio source directly to your hearing aids.

## 3. Remote Microphone +

Enables easy audio streaming and one-on-one conversations in noisy environments.

## 4. Table Microphone

Make group settings easy with eight built-in microphones that stream the primary speaker's voice to your hearing aids.

## 5. Remote

Easily control memory and volume, mute your hearing aids and turn other special features on and off.
