

Muse™

*Wireless hearing solutions
made for life.*

Made for life.

It's been proven that hearing health is directly connected to overall health and well-being.

When you're able to hear and engage with the world around you, you live a better and healthier life.

Our pursuit to help people hear better and live better has led to our biggest breakthrough to date.

Introducing Muse™, Starkey's most advanced technology that offers supreme sound quality and premium features. Muse is customized to fit your unique hearing needs and enhance your listening experiences.

Starkey Sound™ has cutting edge technology that delivers true listening enjoyment.

Muse hearing aids are made for life.

Muse™

Made for your day-to-day.

Listening in noise

Advanced noise reduction technology and precise directional microphones work together to help make speech easier to hear in today's complex listening environments.

Better connections

Stream TV, music and more to your hearing aids. SurfLink® Mobile 2, SurfLink Media 2 and SurfLink Remote offer carefree hands-free connectivity and control with no worn device.

Works with your phone

While other hearing aid manufacturers require you to wear a device around your neck, SurfLink accessories offer a direct wireless connection between your phone – or any other Bluetooth® device – and your hearing aids.

Made for convenient connectivity.

With more and more wireless products, making connections between devices can be challenging. To navigate listening environments with high wireless traffic, our 900sync™ Technology provides a powerful solution. It delivers high bit-rate streaming, allowing for ear-to-ear phone streaming and wireless capabilities for single-sided hearing loss.

SURFLINK®

Our Starkey wireless hearing aids wouldn't be complete without our popular SurfLink accessories.

Our compact cell phone transmitter, **SurfLink Mobile 2**, is an assistive listening device, media streamer and hearing aid remote all rolled into one.

SurfLink Media 2 is a set-and-forget media streaming solution that connects to TVs, MP3 players and more, to wirelessly stream audio directly to your hearing aids.

Our **SurfLink Remote** can be used to adjust volume, change memory modes, go in and out of streaming mode and much more — all with the push of a button.

Our discreet, lightweight **SurfLink Remote Microphone** is worn by a conversation partner to aid patients in one-on-one conversations in difficult listening environments.

Made for music lovers.

*“Life seems to go
on without effort
when I am filled
with music.”*

- George Eliot

**Tastes in music may be unique,
but the power of music is
universally understood.**

Thanks to the processing power in
Muse hearing aids, you can enjoy
your favorite music in a whole new
way with features that:

- Focus on music audibility, desired loudness and sound quality
- Make soft music sounds audible
- Allow on-demand and automatic control

The result is listening enjoyment for
the way you want to hear music –
automatically and in your control.

Made for every type of hearing loss.

If you have single-sided hearing loss, Muse has a solution for your hearing needs.

Our wireless **CROS** and **BiCROS** hearing aids bring audibility and speech understanding to those who struggle with single-sided hearing loss. 900sync Technology allows streaming to the good ear to provide quality, clarity and consistency of sound.

CROS/BiCROS
functionality is
available to you
in RIC or BTE styles.

*There are approximately
60,000 new cases of
single-sided hearing loss
in the U.S. each year.¹*

¹ Williams, V. A., McArdle, R. A., & Chisolm, T. H. (2012). Subjective and objective outcomes from new BiCROS technology in a veteran sample. *Journal of the American Academy of Audiology*, 23(10), 789-806.

Made to deliver the very best.

You want

Muse delivers

*To hear comfortably in
challenging environments*

Acuity™ Directionality is designed to improve speech audibility in difficult listening situations along with **Speech Shift**.

*To easily adapt to
new sounds*

Starkey's new feature speeds your transition to hearing aids by gradually adjusting settings to allow your brain to get used to new sounds.

*Better wireless
streaming*

Technology that provides consistent wireless performance while streaming TV, music and other media with **SurfLink Mobile 2** and other **SurfLink** accessories.

*A comfortable, personalized
listening experience*

Sound comfort technology designed to provide distortion-free listening comfort for loud sounds while ensuring ultimate clarity for soft sounds.

No buzzing or whistling

Starkey's best-in-class feedback cancellation system providing feedback-free, comfortable listening all-day long.

*Durable, dependable
hearing aids*

Surface™ NanoShield, our pioneering water, wax and moisture repellant system, to protect and ensure durability and dependability.

*Music the way it was
meant to be heard*

Muse is designed to allow you to experience music in a whole new way. Now you can hear every note the way the artist intended – with pure, refined sound quality.

Customizable tinnitus relief

Advanced **Multiflex Tinnitus Technology** integrated into Muse to bring relief to those who suffer from ringing in the ears.

Features may vary by technology level.

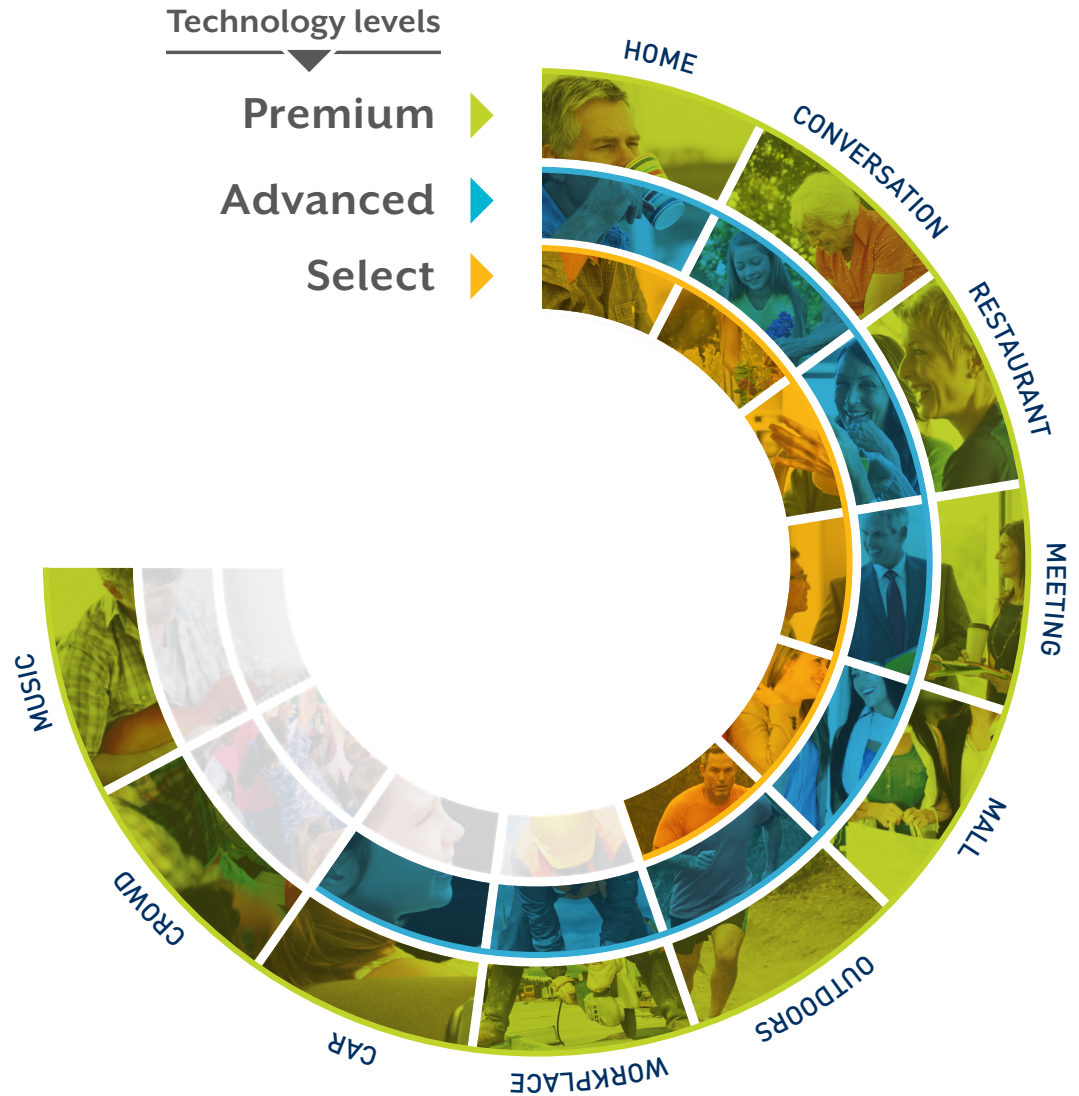

Made for
everywhere
you are.

From the beginning,
our hearing solutions
have enabled people to
hear better in difficult
environments and
live a better life.

You want to hear all the
subtleties of life: the inflection
in the voice of a spouse or
the nuances in the notes
of a favorite song. Whether
it's one-on-one or in the
most crowded places,
you'll hear the world
around you.

Listening environments

What is your hearing lifestyle?

Our lineup of products enhances many different listening environments. What you need depends on your lifestyle and how active you are.

Made so
the world
may hear.

Our Founder and CEO,
Bill Austin, has always held
a strong belief that the gift
of better hearing results
in a fuller and better life.

We prove our dedication to this
philosophy daily, through our
support of Starkey Hearing Foundation.
And for every Starkey hearing aid
purchased, we help someone in need.

The gift of hearing opens up new
worlds of opportunity. It connects
individuals to life and helps them
realize they can accomplish more
than they ever thought possible.
Starkey Hearing Foundation uses
hearing as a vehicle to change
lives around the world.

Made for a happy, healthy life.

Hearing loss isn't just an ear issue,
it's a quality of life and health issue.

It can occur for natural reasons, but
other causes might surprise you.

Older adults*

with impaired hearing may have a
shorter lifespan than their peers
without hearing problems.¹

*70 years and older

People* with a hearing loss experience a
30-40% faster decline in cognitive abilities
compared to peers without hearing loss.²

*75 years and older

People with low-frequency
hearing loss are considered **at risk**
for cardiovascular events.³

Muse hearing aids are made so people with
hearing loss won't have to miss a single
sound that brings them joy. They are made
knowing people who hear better live better.

Adults* with untreated hearing loss

were more likely to report
depression, anxiety and
paranoia than peers who
wore hearing aids.⁴

*50 years and older

Adults with untreated hearing loss
are more likely to develop dementia.⁶

There is a significant
association between
**high blood
pressure**
and untreated
hearing loss.⁷

People with
mild hearing loss
**are 3x
more likely**
to have a history
of falling.⁸

90-95%

of people with **hearing loss can
be treated** with hearing aids.⁹

*Simply put, Muse hearing
aids are made for life.*
