People and surroundings

Enjoy a rich and vivid Surround Sound experience that seamlessly connects you to the people around you.

Your essential communication devices

Get strong, wireless connections to devices like your TV, cell phone, computer, and stereo. No wires, cables, or extra, uncomfortable accessories to wear.

Your individual needs and preferences

Count on a hearing instrument that was carefully crafted to meet your individual needs, and has moisture protection that works for every lifestyle.

ReSound Alera®

A family of products that simply sound better

Introducing ReSound Alera®, a platform of hearing instruments that provide superior sound quality and powerful, versatile, cutting-edge technologies that are easy to use.

Alera sounds better

The exceptional computational power of ReSound Alera makes advanced hearing improvement features possible. Alera technology is modeled on how the ear naturally hears and offers robust features that provide a better, more natural sound experience.

- Exceptionally rich sound
- Full awareness of the individual sounds around you
- Improved ability to locate where sounds are coming from
- Clear sound and complete comfort when using the phone and listening to music
- Better understand speech, even with background noise
- Whistle-free sound, whether you're on the phone, or hugging someone

Imagine you're deep in conversation and there's a lot going on. This is the time when you'll really appreciate our rich sound and clarity. It's the Surround Sound experience found in ReSound Alera.

Alera is simply better

Alera's powerful technology makes it simple to use and delivers personalized settings that ensure your comfort throughout the day. You'll be amazed at how ReSound Alera automatically adjusts to your changing sound environments.

ReSound Alera easily connects to your TV, stereo, computer and cell phone. Using 2.4 GHz technology, a clear wireless signal streams audio directly to your hearing instruments, without wearing anything extra around your neck.

Note: Wireless capabilities depend on which ReSound Alera model you choose. The relevant ReSound Unite wireless accessories are required.

It's never been easier to connect

ReSound Unite® is a series of easy-to-use wireless accessories that deliver clear, comfortable and dependable connections from your ReSound Alera hearing instruments to essential audio devices. Utilizing 2.4 GHz wireless technology, ReSound Unite accessories deliver clear sound over a long range with minimal delay.

ReSound Unite® Mini Microphone

- Sends a speaker's voice or streaming audio—directly into the hearing instruments
- Extends the hearing range beyond the reach of any hearing instrument, in a wealth of situations
- Small and lightweight; clips on to lapel without the need for extra devices or cables
- 8.5 hours of talk time; range of up to 20 feet

ReSound Unite® TV

- Transmits sound directly from your TV to your hearing instruments
- Allows you to hear what's going on around you while watching TV
- Reconnects automatically when you move out of range and return within 5 minutes

ReSound Unite® Phone Clip

- Compatible with any Bluetooth®-enabled phone
- Sends sound from phone to hearing instruments within 3 feet
- Small and lightweight; clips on to clothing or a car's sun visor
- 4–5 hours of talk time, 100 hours of standby time

ReSound Unite® Remote Control

- Clear LCD display provides an easy overview of hearing instrument settings
- Can be used to change hearing instrument programs, adjust volume and start streaming to other ReSound Unite devices
- Key lock makes it possible to carry in a pocket or bag without accidentally changing settings

Alera resists moisture

iSolate™ nanotech, a special moisture protection technology, guards every vital component of your hearing instruments against moisture. As a result, liquid simply beads up and rolls off when it comes in contact with ReSound Alera. iSolate nanotech protects your hearing instrument from corrosion or damage due to moisture or sweat during physical activities, creating a device that lasts.

Customized to your needs and preferences

- A choice of colors and models
- Models with wireless connectivity
- Personalized settings to match your lifestyle
