

Break the vicious cycle

The severity of your tinnitus depends largely on how much attention you pay to the unwanted sound. When tinnitus prompts negative feelings, it can cause a reaction that makes you pay more attention to it, and a vicious cycle begins. The aim of tinnitus therapy is to break this vicious cycle.

ReSound

rediscover hearing

ReSound® helps people rediscover hearing. We develop hearing solutions that emulate the natural ear to let them forget their hearing loss and their hearing aids – enabling them to live rich, active and fulfilling lives.

ReSound LiNX TS™ offers a game-changing approach to managing your tinnitus. Our 4th generation tinnitus sound therapy with the world's smartest hearing aid. This kind of sound therapy, together with informed counseling, has proven to be a highly effective way of managing tinnitus.

Take control of your tinnitus

ReSound LiNX TS™ offers a game-changing approach to managing your tinnitus. It combines advanced sound therapy with the world's smartest hearing aid. Sound therapy provides relief from tinnitus by diverting your attention away from it. Together with informed counseling by a hearing care professional, sound therapy has proven to be a highly effective way of managing tinnitus.

Stream any sound you like — the possibilities are endless!

A personalized solution

Because each case of tinnitus is unique, ReSound LiNX TS lets you personalize your sound therapy. There's a choice of four built-in options. And a direct wireless connection to your iPhone, iPad or iPod touch gives you access to numerous sound therapy apps available on the App Store. Or, you can stream any other sound you like including music. You and your hearing care professional will work together to determine what's best for you.

ReSound LiNX TS is compatible with iPhone 5s, iPhone 5c, iPhone 5, iPad Air, iPad (4th generation), iPad mini with Retina display, iPad mini, and iPod touch (5th generation), using iOS 7.X or later.

* The ReSound Smart™ app is compatible with iPhone 5s, iPhone 5c, iPhone 5, iPad Air, iPad (4th generation), iPad mini with Retina display, iPad mini, and iPod touch (5th generation), using iOS 7.X or later. It is also compatible with some Android smartphones running 4.4.2 or later. Visit resound.com/smartapp to see which Android devices you can use with the ReSound Smart app. If you have an iPhone 4s or earlier, or an Android smartphone, running 2.3.5 - 4.4.1, you can use the ReSound Control™ app together with the ReSound Unite™ Phone Clip+. See www.resound.com/smartapp

The world's smartest hearing aid too!

ReSound LiNX TS uses a unique sound processing strategy called Surround Sound by ReSound™. It's designed to provide effortless hearing, even in situations people find challenging. And in a recent independent study comparing premium products from five manufacturers, a panel of experienced hearing-aid wearers gave ReSound's sound quality top rating.*
