**FROM AMERICA'S PREMIER
HEARING AID PROVIDER**

When it comes to wanting the world's smallest, most comfortable and best sounding hearing aids, people everywhere turn to Starkey, the only American-owned and operated manufacturer of advanced hearing solutions. And Xino, our sleek and performance-driven Receiver-In-Canal, is the one solution demanding people turn to most.

XiNO™

Small Hearing Aids. Big Benefits.

Tiny Xinos are a great choice for a variety of hearing losses. Packed with Starkey's latest technology, they're designed to:

- Improve hearing in noisy environments
- Eliminate buzzing and whistling
- Enhance phone conversations

WHAT'S RIGHT FOR YOU?

Xino hearing aids are designed to accommodate and enhance a variety of different listening environments.

What you need will depend on how busy and active you are, and what types of environments you frequent.

- Variety of color options available
- Absolute Power (AP) version available for moderate to severe hearing loss
- Available in mini RIC and micro RIC styles

YOU WANT

XINO DELIVERS

Small, discreet hearing aids

Feature-rich hearing aids that hide behind your ears

A way to hear better in noise

A precision microphone technology and advanced noise reduction and speech recognition system designed to amplify meaningful sounds—such as speech—while reducing unwanted background noise

Help hearing high-frequency sounds

(like children and women's voices)

The only technology that replicates high-frequency speech cues into lower frequencies, where they're easier to hear

A personal and comfortable listening experience

Sound compression technology designed to differentiate soft speech from loud, for a more enhanced and natural sound quality

Direct audio streaming of media devices

Direct-to-hearing-aid streaming of TVs, computers, MP3 players and phones when synced with either SurfLink® Mobile or SurfLink Media

No buzzing or whistling

Our industry-leading feedback elimination technology makes buzzing and whistling hearing aids a thing of the past

Features may vary by technology level.

LIFE WITHOUT LIMITATIONS

For Xino Wireless wearers, our innovative SurfLink accessories make it easier to enjoy TV, music, cell phone conversations and more — no wires attached!

↘ SURFLINK MEDIA

This set-and-forget media streaming solution connects to TVs, MP3 players and more to wirelessly stream audio directly to your Xino hearing aids. You can hear the volume at the level you want, while everyone else in the room can listen at the volume they want.

↘ SURFLINK REMOTE

This handy remote lets you adjust and control your Xino hearing aids with the push of a button.

↳ SURFLINK MOBILE

Enjoy hands-free phone conversations with this one-of-a-kind device. That's because SurfLink Mobile turns your Xino hearing aids into both your cell phone microphone and receiver:

Microphone — Your hearing aids can pick up your voice and send it to the person you're talking to

Receiver — SurfLink Mobile streams the voice on the other end of the phone directly to both of your hearing aids

But that's just the beginning. SurfLink Mobile is not only a cell phone transmitter, it's also an assistive listening device, media streamer, and hearing aid remote all rolled into one.

SurfLink accessories are compatible with Xino Wireless only.

**EXPERIENCE
MORE**

When you wear Xino, you'll experience more than just the latest hearing aid technology available today. You'll experience hearing aids designed to make listening easy and enjoyable...again.

Consult your hearing care professional and start experiencing Xino for yourself.
